

GOLDEN DAYS DAFFODILS

TWO SELECTIONS OF GORGEOUS, DEER-PROOF PERENNIALS

COLORBLENDS, a wholesale bulb company in Bridgeport, Connecticut and The Netherlands, has created these two selections exclusively for National Garden Clubs, Inc. Each large (16cm+) bulb will produce 2-3 flowers. Shipped for planting this fall, they will brighten the landscape in early spring for years to come, and deer and rodents will leave them alone.

Master Daffodil Blend. This hybridizer's blend offers a tour of the wide world of daffodils. It includes at least 50 tall and mid-sized varieties that will broaden your daffodil horizons, introducing you to colors and flower forms you've never seen before. Great for naturalizing, but be sure to put some where you can examine the amazingly intricate blooms.

Golden Harvest is an old-timer (almost 100 years old) but still an incredible daffodil. Vigorous and long lasting. The bright yellow daffodils that you see along the roadside are often Golden Harvest.
