

Paint the Town Yellow 2008-2009

Please join us this fall to

Paint the Town Yellow!

We need your help to Paint the Town Yellow! The Canton Garden Club is coordinating a massive daffodil bulb planting project again this fall.

We want to involve as many people as possible in the Paint the Town Yellow project, to plant as many bulbs as possible, in as many locations as possible, all over town.

We are asking individuals, schools, churches, and businesses from all over town to jump in and plant large numbers of yellow daffodil bulbs around Canton. Last fall 25,000 bulbs were planted all over Canton and in the spring our town was "painted" in beautiful yellow blooms. This fall we want to plant more bulbs for an even more spectacular showing for spring 2009.

We are encouraging individuals and groups to participate by having bulbs and instructions available throughout September and October. Garden Club members will be setting up a display at the Canton Homecoming on September 27th where order forms, bulbs and instructions will be available.

Join us and celebrate a Yellow Spring!
