

ODCS 2010 PLANT ORDER

The Old Dominion Chrysanthemum Society

(Membership representation from Alexandria, Annandale, Arlington, Burke, Chantilly, Clifton, Fairfax, Fairfax Station, Falls Church, Gainesville, Herndon, McLean, Manassas, New Market, Springfield, Vienna, Washington D.C., and MD)

At one of The Old Dominion Chrysanthemum Society's (ODCS) recent shows and/or plant sales, you requested information and a plant order list for the upcoming season. Attached you will find the **2010** order form with the price list for **new varieties of mums** being introduced this year, as well as many of the **past favorites**. Please share this list with your fellow gardeners who may wish to order a variety of mums not available at local nurseries. If you have trouble downloading the order list, printed copies are available upon request (703-560-8776).

Please fill in the form with your requested cultivars and send your list with a check for the correct amount to: Gene Mertes at the address on the plant order form **NO LATER THAN FEBRUARY 20th, 2010**.

Your order will be ready for pickup on Saturday, May 1st from 10 a.m. until 3 p.m. at the home of: Tim Moore, 9338 Athens Road, Fairfax, VA 22032 (236 / Little River Tpke. to Olley Lane, drive $\frac{3}{4}$ mile on Olley Ln., turn right onto Athens Rd, 3rd house on right).

We would also like to inform you that you can save money on your plant order by becoming a member of ODCS. We offer discounts to our members for the plants that they purchase from this yearly plant order list. In addition, **new members receive 5 free plants and growing tips** when they join, as well as a subscription to the National Chrysanthemum Society's quarterly magazine, *The Chrysanthemum*. Members also receive ODCS's monthly newsletter containing notices pertaining to our monthly general meetings, which have presentations on a variety of horticultural subjects as well as discussions regarding the best ways to enhance your chrysanthemum growing and other gardening tips. We also hold a yearly picnic and an annual brunch in the fall at Ft. Myer Officers Club. Please call Ed Mascali at 703-893-6429 or e-mail at ODCS2010@yahoo.com if you are interested in joining us. Membership applications are available on-line through our website – www.odcsmums.org. Annual dues are only \$30 for individuals and \$35 for garden clubs.

267	Fantasy		Purple spoon tips with cream tubes, grown in sprays. Med height.	C	10
268	Kimie		Charming yellow spoon, a joy to grow.	A	9
269	Redwing		A beautiful red spoon form bloom.	B	9
CLASS 10 - QUILL					
270	Lola		Very large lavender pink. Huge spreading flower of medium size florets. Vigorous, easy to grow. Will support many large blooms. Excellent stem and foliage. Flower to crown or terminal bud.	A	10
271	King's Delight		Vibrant, truly pink, finely quilled, very long life. Blooms upright medium height. Flower to terminal bud or spray.	B	10
272	Seatons Ashleigh		Fine purple. Long lasting and weather resistant. Medium height. Flower to crown or terminal bud.	A	9
273	Seatons Toffee		Deep bronze large blooms. Good strong stems that holds blooms perfectly erect. Long lasting. Medium height. Flower to crown or terminal bud.	A	9
CLASS 11 - SPIDER					
274	Chesapeake		Outstanding, very full white spider, long lasting, crown or terminal bud.	A	10

275	Descanso		Bronze blooms. Medium height, flower to crown bud.	A	10
276	Downpour		A pure white perfectly formed lacy spider bloom.	B	9
277	Equinox		A perfectly formed yellow spider bloom.	B	9
278	Evening Glow		Large spreading spider. Light salmon rose shading to bronze. Florets of good substance. Mid-height. Disbud to 2nd crown	A	10
279	Flair		An easy to grow lavender spider mum.	A	9
280	Golden Rain		Very cascading long golden florets curl and interlace. Florets would extend to 15 inches if held out. Med. height. Disbud to crown or terminal bud.	A	11
281	Golden Splendor		A very large pure golden spider bloom.	A	10
282	Icicles		Pure white florets with notched tips, good stems, terminal bud.	A	10
283	Lava		A most unusual color, a combination of yellow and bronze florets.	A	10
284	Mocha		Chocolate colored. Large petals. Medium height. Flower on crown or terminal bud.	A	10
285	Nightingale		Original green or chartreuse colored spider. Keep shaded to protect color during bloom period. Medium height. Flower to terminal bud.	A	11
286	Seaton's Galaxy		A deep purple well formed spider bloom.	A	10
287	Senkyo Kenshin		Large dark bronze tubular florets stand out stiffly from full centers. Exceptional long life, med height, disbud.	A	11
288	Symphony		A well formed large bronze spider bloom.	A	10
289	Vienna Waltz		Stunning lavender pink spider. Long tubular florets flow from full centered blooms of large size and long lasting substance. Disbud. Medium height. Flower to 2nd crown or terminal bud.	A	10
290	Wind Dancer		A fantastic deep golden brown spider mum laced with hundreds of fine florets arranged in perfect symmetry. Very full with a long bloom period. Medium height. Flower to crown or terminal bud.	A	10
			CLASS 12 - BRUSH AND THISTLE		
291	Aoi		A purple thistle type. Blooms are produced in profusion. Unusual airy look. Great for arrangements. Med. height. Flower to sprays.	C	10
292	Cisco		Intense bright yellow. Durable blooms on strong stems. Tall.	C	9
293	Saga Nishiki		Bronze petals on a brush type bloom.	C	10
294	Wisp of Pink		Pink thistle florets, arrangers' delight.	C	10
			CLASS 13 - EXOTIC		
295	Chrysanthemum Pacificum		A hardy chrysanthemum with handsome silver-edged dark green leaves and small golden bud-like flowers formed in large clusters. Easily propagated and pest resistant. Short. Flower to sprays or good in pot.	C	11
296	Diana Stokes		Deepest maroon tips with silver ray florets. Medium height. Flower to crown or terminal bud.	A	10
297	Lili Gallon		Deep purple curling florets with silver reverse, 1st or 2nd crown bud	A	9
298	Lone Star		A real beauty. Lower florets radiate out in quilled tubular form while the center florets are incurving forming a half sphere.	A	11
			CASCADES/TREES/GNOMES		
			PRICE PER PLANT - \$4.50		
			Cascade		
			These small flowered types are best adapted to cascade use, but can be used in many other ways such as tree form, or allowed to grow naturally in pots producing a mass of bloom, with little care. These are vigorous and easy-to-grow cultivars.		

300	Biko		A small deep purple anemone, especially good as a cascade. Blooms cover the leaves completely, giving a glorious splash of color. Tall. Grow to sprays or cascade.	C	10+
301	Kurume		A deep red sport from Himegokoromo, with ray and center florets of the same color. A fine grower producing an abundance of blooms on limber stems, easily trained. Tall. Sprays or cascade.	C	9
			Trees or Pots		
302	Anthem		Very dwarf bright yellow semi-double. Excellent for its prolific bloom habit and compact growth. Blooms densely cover the plant to form a solid blanket of vivid yellow color. Fine for borders, bedding, or containers. Short. Flower to sprays.	C	11
303	Gumdrop		High yellow disk and short white ray florets. Looks almost like a miniature powder puff. Produces good terminal sprays. Good as a small trained specimen. Grow to sprays. Med. height.	C	10
304	Pumpkin		This small orange anemone will produce a brilliant mound of color or can be easily trained to tree style. Short.	C	9+
			Gnomes or Bonsai		
			Low growing, mounding types with small leaves & blooms of anemone and daisy styles. Bushy, free branching strong stems. Height from 8 to 15 inches, naturally short. Most bred for training to bonsai style and pots.		
305	Chidori		Very small white flower with yellow center. Great bonsai.	C	10
306	Hatsune		Solid yellow anemone. Bonsai or pot.	C	10+
307	Kotoi No Kaori		Golden bronze anemone with red ray florets, free flowering.	C	11
			NEW INTRODUCTIONS FROM KINGS		
			PRICE PER PLANT IS \$5.50		
			Class 5 – Intermediate Incurve		
900	Norton Vic		A compact purple intermediate incurve bloom, interesting bloom.	B	10
901	Pearl Edward Shaw		Large pink blush bloom borne on a medium height plant.	A	10
			Class 8 – Anemone		
902	Mancetta Sunset		Anemone bloom with bronze ray florets and yellow disc florets.	B	10
903	Peter Mangus		Pinkish-lavender anemone. Perfect for cascade. Medium height.	C	9
			Class 9 – Spoon		
904	Judith Baker		Deep bronze spoon tipped bloom.	A	9
			Class 11 – Spiders		
905	Evan's Dream		Large light pink attractive spider bloom.	A	9
906	Goldilocks		Rich golden yellow spider. Strong stems hold blooms erect. Disbud to crown for earliest blooms.	A	10
907	Zaryah		A well formed bronzy-orange spider borne on medium plants.	A	9
